

## DEPARTMENT OF HEALTH SCIENCE

COLLEGE OF HUMAN ENVIRONMENTAL SCIENCES

# Research Productivity

Faculty research productivity in the Department of Health Science is evaluated primarily through the regular output of peer-reviewed publications in respected national and international professional journals, peer-reviewed presentations at national and international conferences, and ongoing activity related to securing external funding or implementing externally funded research projects.

The Department of Health Science values the following:

- Rigorous research design
- Ethical research practice
- Contributions to evidence-based practice
- Translation of research to practice
- Dissemination through quality outlets
- Involvement of stakeholders
- Interdisciplinary collaboration
- Students as research partners
- Qualitative and quantitative inquiry
- Primary and secondary data analysis
